POLICY OF COOKIES

Our website uses cookies, as almost all websites do, to help provide you with the best experience we can. Cookies are small text files that are placed on your computer or mobile phone when you browse websites

Our cookies help us:

- Make our website work as you'd expect
- Offer you free services/content (thanks to advertising)
- Improve the speed/security of the site
- Allow you to share pages with social networks like Facebook
- Continuously improve our website for you

We do not use cookies to:

- Collect any personally identifiable information (without your express permission)
- Collect any sensitive information (without your express permission)
- Pass personally identifiable data to third parties
- Pay sales commissions

You can learn more about all the cookies we use below.

Granting us permission to use cookies

If the settings on your software that you are using to view this website (your browser) are adjusted to accept cookies, we take this, and your continued use of our website, to mean that you are fine with this. Should you wish to remove or not use cookies from our site you can learn how to do this below, however doing so will likely mean that our site will not work as you would expect.

Website Function Cookies

Our own cookies. We use cookies to make our website work. There is no way to prevent these cookies being set other than to not use our site.

Visitor Statistics Cookies

We use cookies to compile visitor statistics, such as how many people have visited our website; what type of technology they are using (e.g. Mac or Windows, which helps to identify when our site isn't working as it should for particular technologies); how long they spend on the site; what page they look at, etc. This helps us to continuously improve our website. These programs also tell us how people reached this site (e.g. from a search engine) and whether they have been here before, helping us to put more money into developing our services for you instead of marketing spend.

Turning Cookies Off

You can usually switch cookies off by adjusting your browser settings to stop it from accepting cookies. Doing so, however, will likely limit the functionality of our and a large proportion of the world's websites as cookies are a standard part of most modern websites.
